Does not attempt to reach the limits of car _____ _____ _____

Does not "lift" off of accelerator in middle of turn _____ _____ _____

Does not scare instructor (unusual habits, movements, etc.) _____ _____ _____

Any score of Most times or Some Times in any of the Essential" categories is an automatic non-advancement. More than 3 checks in the Most times or any checks in the Some times areas of the Fundamentals section is a reason for non-advancement.

Advancement from Green to Blue is not based in any way on speed of the participant. It is based on how safe the person is and how in control of the car he or she is. A slower person who does everything correctly will advance to the Blue group faster than a fast person who makes mistakes. Remember, these guidelines are an attempt to keep you from hurting yourself, your car, or any other person.

If you are denied advancement during the course of a weekend, you will not be allowed to receive a second opportunity for the duration of the weekend. If you are advanced, it will take place at the following event.

Instructor signature _____ Date _____

Recommendation Advance to Blue _____ Keep in Green _____
